May Noggin – Keighley & Worth Railway 11 May 2014

On a damp and windy Sunday an elite group of 10 Norcemoggers met at Ingrow West Station to take a trip on the Keighley & Worth Railway.

We had a visit to the Loco Shed before catching the 11.18 to Keighley. The engine was a splendid 2-8-0 WD Austerity No.90733 pulling BR coaches. On arrival at Keighley, just one stop up the line we disembarked to head to Wetherspoons, which Ron & Maria had spotted on the way to Ingrow. Isobel's previous Wetherspoons experience had not been good, however with gentle persuasion she agreed to give it another try. An excellent repast was had by all, with the highlight being steak peas & chips plus a pint for £7.00

We headed back to Keighley to get the 13.15 train to Oxenhope at the other end of the line, 660feet above sea level.

Following a good look around, we took the 14.45 to Haworth. This train was pulled by

another 2-8-0 , S160 No.5280, but this was a Lima American Engine built in the Baldwin Locomotive Works in Philadelphia, Pennsylvania by the US Army Transportation Company. In splendid grey livery it was a fabulous sight as it came into the station. We travelled to Haworth for a swift but uneventful look around. The main street was some way from the station and up a very steep hill, which deterred our less ardent members. So back to Howarth station to return to Ingrow West to visit the Museum of Rail Travel and inspect the old railway carriages and memorabilia on display. There are more pictures on the website!

Gawsworth Classic Car Show 2014

May the 5th dawned fine and bright for the annual Classic Car Show in the idyllic setting of Gawsworth Hall, between Congleton and Macclesfield in the county of Cheshire. Here we see pictures of the many Morgans and a few others that were present. Note the variety of wheel centres used by Morgans (with a couple of lesser ones for good measure !!)

David Birch, who sent more photos, which will appear on the website as well!
