

## Norcemog Scenic run – 10<sup>th</sup> July 2016

The Norcemog Scenic run

That sounds like jolly good fun

Let's plan it for mid July

Then the sun should surely be up high

We wake and look out of the window

To see the sun down low

But it's not raining so that is a plus

No roof on the Morgan, we'll be called a wuss

So off we set up the M61

Where has that sun jolly well gone?

Huntley's car park is getting quite full

Morgan's everywhere we have quite a cull

So a quick cup of coffee and powder of nose

Then on to the drive everyone goes

We set off to Ribchester taking a left turn

All except Roy who goes right with a gurn

We take in some sights as we weave round the bends

Beautiful scenery this land certainly lends

Greenery everywhere, such glorious sights

Then out come the clouds and on go the lights

Some of us pull over and up goes the roof

Where is Roy? He is being quite aloof

We set off to Watershed mill for lunch

There's a fair few Morgan's in today's bunch

Isobel and Peter find coats from somewhere

And save us all a place at the table and a chair

Sandwiches, jackets and Yorkshire puds to be had

This lovely scenic run to miss would be mad

Outside after lunch a field full of sheep

The roofs off we decide to keep

We set off for part two of our Morgan convoy

Martin has thankfully heard from Roy

He's safe and sound back at home

So off to Lancaster we roam

Through the Trough of Bowland and past Jubilee Tower

These beautiful Morgan's are full of power

Fast enough to dodge the rain

Then to The Barn we go and park the cars up again

Now it's time for afternoon tea and a natter

Then one by one we head home in a scatter
